

# 6 WEEKS-6 MONTHS CURRICULUM

## Develop COGNITIVE skills by:

- Learning to pick up a toy
- Finding a hidden toy
- Becoming aware of their Hands and toys
- Putting toys in their mouths

## Develop LANGUAGE skills by:

- Cooing, laughing, and crying
- Saying simple words as "da", "ma", and "bye"

## Develop SOCIAL skills by:

- Talking to infants
- Making different sounds and facial expressions
- Mimicking sounds
- Interacting with other infants

## Develop MOTOR skills by:

- Holding and manipulating objects
- Pulling their chest up off the floor
- Scooting or crawling
- Sitting up
- Rolling over

## Develop SELF-HELP skills by:

- Holding their own bottles
- Playing on the floor near an adult
- Falling asleep in a crib

We encourage and allow children to develop at their own pace, giving them experiences and opportunities to explore the world around them through floor play, snuggling, and interaction during routine times.
